Department of Computer Engineering

Date: 10/02/2016

Report of Industrial visit

2015-2016

As a part of the curriculum, the students are required to undertake Industrial Visits to a few industries of repute. We feel it will be useful that the students with academic background have a glimpse of the industry in order to have a better appreciation of practical applications of theory.

The Industrial Visits of Computer engineering was conducted on 05/02/2016 of Second year students and 18/12/2015 of Third and Final year students. The Industrial visit was planned to go at **Giant Metrewave Radio Telescope (GMRT), Khodad, Maharashtra.**

The visit was conducted in its true spirit and was really helpful for the students to understand system in Giant Metrewave Radio Telescope (GMRT), Khodad. GMRT consists of 30 fully steerable gigantic parabolic dishes of 45m diameter each spread over distances of upto 25 km. GMRT is one of the most challenging experimental programmes in basic sciences undertaken by Indian scientists and engineers.

Our students are very eager to visit technical department of Giant Metrewave Radio Telescope (GMRT), which currently doing the practices to search for rapidly-rotating Pulsars in our galaxy. It can also provide the information about the automation technique.

Prof. J. C. Musale, Prof. A.T. Lohar

Industrial Visit In charge

Prof. M. A. Mulik
